VERSA

Supply chain Management Software

Versa is a cloud-based Supply chain management software that empowers small and mid-size businesses to unlock their potential and drive growth. Versa delivers transformational functionality to the processes that are critical to your business success. It is versatile and can be used in conjunction with your own distribution points or a thirdparty distributor.

Versa

With Versa fueling your sales and distribution activities, you can achieve high performance in even the most fast-moving and fragmented marketplace.

WHY VERSA

Greater productivity
As a result of more effective processes with distributors, reduced paperwork, improve team monitoring and better route planning

Fully scalable
Designed to support businesses of any size and is capable of supporting multiple salesoffices and distributors.

Connected Cloud Platform:
Versa is a cloud based tool, accessible through web browser from any operating system platform with internet connection

Do More with Less:
Control workflows and maximize your resources by bringing complete information from everyone, everywhere, under a single pane of glass; one software to manage your entire business efficiently.

High Value:
Unlimited users with no increased expense; no software installation; maintenance ormanagement fees; no hardware or device upgrades required.

Smart System:
Individuals see only information relevant to their jobs, giving people what they need to remove bottlenecks and speed decisions.

Ease of Use:
Collaborate easily and efficiently on Mac, PC, tablet, or phone

Improved Profitability:
Through a collaborative workplace, improved inventory and asset management, more efficient use of resources and precise business controls, Versa allows you to focus on company growth

DayScholars Innovations Pvt.

DayScholars Innovations Pvt. Ltd. started off as a Startup Company by 6 engineering graduates in 2011, and has now grown into a Multi-City Organization with presence in 3 cities across South India. Helping build software products that define innovation and accessibility, the focus has been on building solutions that make life easier and technology more accessible to the individual user and businesses alike. With a strong array of 4 products and a user base of over 60,000 across South India, the team at DayScholars Innovations has risen to host some of the best technical and creative minds in the industry, the core essence of our success. Just as strongly as we advocate technology and its use, the strong support system provided by our clients has also played a major role in the glory we bask in now. Acting on a partnership basis and not just on pure raw Company-Client relations, we enjoy providing solutions to your business problems. After all, finding solutions to problems is the real challenge. And we, love challenges.
